How an Enemy was Foiled. The following graphic statement will be ead with intense interest: "I cannot describe The following graphic statement will be read with intense interest: "I cannot describe the numb, creepy sensation that existed in my arms, hands and legs. I had to rub and beat those parts until they were sore, to overcome in a measure the dead feeling that had taken possession of them. In addition, I had a strange weakness in my back and around my waist, together with an indescribable 'gone' feeling in my stomach. Physicians said it was creeping paralysis, from which according to their universal conclusion, there is no reinef. Once it fastens upon a person, they say, it continues its insidious progress until it reaches a vital point and the sufferer dies. Such was my prospect. I had been doctoring a year and a half steadily, but with no particular benefit, when I saw an advertisement of Dr Miles' Restorative Nervine, procured a bottle and began using it. Marvelous as it may seem, but a few days had passed before every bit of that creepy feeling had left me, and there has not been even the slightest indication of its return. I now feel as well as I ever did, and have gained ten pounds in weight, though I had run down from 170 to 137. Four others have used Dr. Miles' Restorative Nervine on my recomendation, and it has been as satisfactory in their cases as in mine."—James Kane, La Rue, O.
